**SUBMISSION OF NEW DRAWINGS IN
 RESPONSE TO "NOTICE OF DRAWING REQUIREMENTS"**

Honorable Commissioner of Patents
 and Trademarks
 Washington, DC 20231

Dear Sir:

In response to a "Notice of Drawings Requirements" dated November 22, 1988, applicant hereby submits new formal drawings for drawing sheets 1-3 and 6-8. In Form PTO-948 accompanying the "Notice of Drawing Requirements," objections were made to Figures 1-3, 12, 13a-13b and 14a-14d. In Form PTO-948, objection was also made to Figure 18i. However, in a telephone conversation with Mr. Roderick Willis concerning this objection, Mr. Willis indicated that the objection was incorrect and should be ignored. Accordingly, no new drawing is being submitted for Figure 18i.

As for the other drawing objections contained in Form PTO-948, new sheet 1 provides a complete Figure 1 and improves the line quality in parts of Figure 2. New sheet 2 is without the objectionable legends in Figure 2b. New sheet 3 no longer includes the objectionable double-line hatching in Figure 3. New sheet 6 is without the objectionable solid black used for the structure identified as No. 57. In new sheets 7 and 8, ground lines have been

removed in Figures 13a-13b and Figures 14a-14d. Also, legends have been removed in Figure 14a. In this connection, as was discussed with Mr. Willis, the objection to the legend "Fig. 14d" in Form PTO-948 is incorrect. The objection indicates that the "d" in the legend is turned the wrong way. After talking with Mr. Willis, it is applicant's understanding that Mr. Willis agrees that this objection is incorrect.

With the foregoing changes, applicant believes these new sheets 1-3 and 6-8, when substituted for the original formal sheets 1-3 and 6-8, will provide a complete set of drawings for the above-identified patent application which are in accordance with Patent Office rules.

Signed at Chicago, in the County of Cook and State of Illinois this 15th day of December, 1988.

Respectfully submitted,

John B. Conklin, Reg. No. 30,369
